## Accumeric Global Business Process Outsourcing Solutions

## Accumeric Global Services

A need to reduce overall operating budgets is a common thread that can be traced throughout all businesses, large and small, across varying industries today. Simply put, to *save money*. Wherever cuts can be made, businesses are looking to make them.

*Affordability* and *efficiency* are two primary factors guiding companies in today's volatile and uncertain climate. No one is interested in sacrificing quality or expediency, but everyone is looking to do things for less money. Accumeric Global Services offers Business Process Outsourcing (BPO) as the key to balancing financial prudence and quality execution that businesses have been struggling to find.

BPO is a service that is positioned to thrive in today's unpredictable business environment. Services currently handled in-house can be assumed via BPOs at a fraction of the cost, and outsourcing many common "back-office" functions provides companies the opportunity to significantly reduce their operational budgets. However, cost savings only scratches the surface of benefits provided by BPOs. A heightened knowledge base, expanded skill level, greater efficiency, reliability and increased speed represent the value companies can gain in real terms when contracting BPO services.

Accumeric Global Services Business Process Outsourcing located in Manila, Philippines consists of a team of licensed accountants, staff accountants, and para-professionals to perform the same tasks as senior level CPA's working in the United States. Our team of high quality accounting staff is managed directly by the accounting professionals of Accumeric, and will perform the same tasks as in-house departments in companies at not only significant savings, but with greater precision, efficiency and expediency.

**The net benefit of this Partnership can be measured in several ways.** By surrendering these duties to a more specialized and highly qualified provider, clients can enhance facilities in this particular field, in addition to opening the door to great innovation in these areas.

With accounting and business services off the plate owners and managers are able to focus on the *real* issues of the company. Releasing this internal strain would allow you to concentrate on your ultimate business goals.

*Partnering* with an expert in the field, clients have the ability to vastly improve the overall quality of the particular service being provided. Additionally, these services are rendered in a more efficient and timely manner, further allowing you to get down to running the business.

Our outstanding services are offered at a significantly reduced cost to what any company is currently paying to handle these services in-house.

We are committed to establishing and fostering relationships with our *Partners* through providing services that yield our *Partners* success.

**Services provided.** Accumeric Global Services assists companies in all sizes whether a simple start-up or a multinational conglomerate. We can configure a BPO package designed with each unique client in mind. Our flexibility and depth of experience in the business service and accounting field enables us to tailor our service based on each particular and specific need. Below is a general list covering many of the services we provide:

- Day-to-day journal entries
- Procurement management
- Bank and credit card reconciliations
- Fund administration
- Vouchers and payroll processing
- Corporate compliance and formalities
- Sales invoicing and collection
- Full service property management
- Tax compliance and reporting
- Audit and control testing
- Financial statement preparation
- Fixed and intangible asset accounting and maintenance
- Accounts receivable collections

No two individuals are the same; each person has their own preferences and expectations. Similarly, no two businesses are the same. Needs, constraints, workflow and attitudes often differ greatly from company to company. At Accumeric Global Services, the success of our business hinges on our ability to customize our plans and services to benefit each unique client.

# flexible solutions for your business needs

Perhaps the need is a complete package covering all of the services outlined above (and maybe more), or it may only require a particular service or a certain element of several services Accumeric provides. We'll assist in determining the *right* type and breadth of service that makes sense for the business. Accumeric is forming *Partnerships*, and those partnerships flourish on our mutual success.

Accumeric Global Services handles accounting and business services for midsize to large companies in manufacturing, construction, engineering, insurance, healthcare, and professional services worldwide. This represents a wide spectrum of clientele across a varied base of industries, demonstrating our ability to accommodate differing needs and requirements. The aforementioned list in no way represents a limit or restriction on the type of business or industry we can assist; it merely serves as an example of the variety of our ever-expanding client base. Whatever your situation or scenario, Accumeric has a potential solution.

**The Current Economic Climate.** The United States is in the throes of a sharp economic downturn with slow recovery in sight. The economic landscape is shifting and changing quickly, in an unprecedented manner.

It is impossible to predict what may happen in the near future, or the long-term effects of the current situation. The best position for any company, given this difficult climate, is one of financial security and stability. Our Business Process services will not only get the job done with greater precision, efficiency and expediency, but with reliability and dependency while lowering operating costs. This opportunity can create a competitive edge and place companies in an extremely enviable position in today's shifting marketplace.

**BPO-The Good, the Bad and the Cost Effective.** Outsourcing should not be equated with a reduction in quality or customer service. In fact, Accumeric Global Services affords the client the opportunity to gain further expertise in a particular area at a significantly reduced cost.
